Temeljna literatura in viri/Readings:

- Straub, O. R. (2014). Health Psychology: A Biopsychosocial Approach Fourth Edition. New York: Worth Publishers.
- Rakovec-Felser, Z. (2002). Zdravstvena psihologija. Maribor: Visoka zdravstvena šola.

Cilji in kompetence:

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- temeljno znanje iz sklopa antropologije in zdravstvene psihologije,
- usposobljenost za avtonomno, celostno obravnavo posameznika in skupine,
- sposobnost vsestranske obravnave pacientov in njihovih svojcev glede na relevantne fizikalne, psihične, socialne, kulturne, duhovne in družbene dejavnike,
- sposobnost za raziskovalno delo s področja antropologije in zdravstvene psihologije,
- komunikacijske sposobnosti in spretnosti v strokovnem domačem in mednarodnem okolju.

Objectives and competences:

The learning unit mainly contributes to the development of the following general and specific competences:

- fundamental knowledge of anthropology and medical psychology,
- autonomous, integrated treatment of the individual and the group,
- the ability of comprehensive treatment of patients and their relatives based on relevant physical, psychological, social, cultural, spiritual and social factors,
- the ability of research work in the field of anthropology and medical psychology,
- communication skills and abilities in the domestic and international environment.

Predvideni študijski rezultati:

Študent/študentka:

- se usposobi za prepoznavanje temeljnih vidikov psihologije osebnosti,
- spozna in razume uvrščenost svojega strokovnega dela v širši družbeni prostor,
- sprejema humane vrednote kot pomemben vidik svojega osebnega in profesionalnega razvoja,
- spozna možnosti raziskovalnega dela v antropologiji in zdravstveni psihologiji,
- spozna osnove socialnega in družbenega obnašanja,
- se usposobi za preprečevanje in reševanje v kriznih življenjskih situacijah,
- se usposobi za uspešno komunikacijo na vseh ravneh svojega strokovnega delovanja.

Intended learning outcomes:

Students:

- are qualified to identify the fundamental aspects of the psychology of personality,
- know and understand their professional work classification in a wider social space,
- accept human values as an important aspect of their personal and professional development,
- realize the possibilities of research in anthropology and psychology,
- learn the basics of social and society behaviour,
- are qualified to prevent and sort out the crisis life situations,
- are qualified to successfully communicate at all levels of their professional activity.

Metode poučevanja in učenja:

- *predavanja* z aktivno udeležbo študentov (razlaga, diskusija, vprašanja, primeri, reševanje problemov),

Learning and teaching methods:

- *lectures* with active student participation (explanation, discussion, questions, examples, problem solving);

<ul style="list-style-type: none"> • <i>seminarske vaje</i>: priprava, predstavitev in uspešen zagovor projektne/raziskovalne naloge, • <i>konzultacije</i>. 	<ul style="list-style-type: none"> • <i>tutorial</i>: preparation, presentation and a successful defence of a project/research paper, • <i>consultations</i>.
